Solidarity-based and social

About **us**

To make sure that you complete your studies in Leipzig successfully, Studentenwerk Leipzig is committed to fair opportunities for all students in Leipzig. We help to ensure that student life remains affordable and promote the student community. We are a dependable partner

– for all students, as well as for universities, employees, ministries, and politicians.

Our focus is on the social aspect.

Our services are provided on the principle of solidarity. That means:

All students liable to pay contributions pay the same semester contribution – regardless of whether and to what extent they actually use the provided services. As the entire student community pays the solidarity contribution, most of Studentenwerk's services are free or discounted, which particularly benefits students who are more dependent on support, e.g., students with disabilities, socially disadvantaged students, and international students.
